OSUM HYBRID SMART SWITCH WITH ALL-IN-ONE SOLUTION

Unravel the privileges veiled in your space, simply by staying connected to every part of it. Experience smart features of true automation that make intelligent spaces a practical reality and effortlessly accessible. Control your space with ease and make it convenient, secure, and entertaining. Take a glance at life enriched with new standard in true automation.

LET SIMPLE ACTIONS LOOK SMART

Requisite ON/OFF functions spruced up in chic looks of the smart switch. Get ready to surprise your walls with a delighting change. What's more? It's economic and retrofits easily in a modular plate. Now, devouring appliances like Fan/AC/Geyser and many more truly gets classier when you pre-set for your delight.

Dual Channel Relay Switch

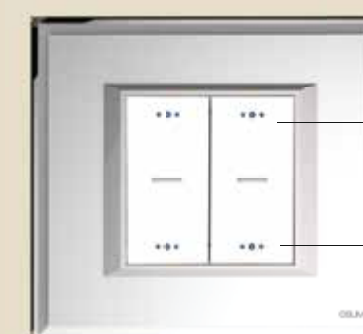

SWING THE AIR WITH A SINGLE TOUCH

Personalize your fan's settings and stay comfortable. Simply set your preferences and smart fan switch will take it ahead for you. Effortlessly switch off the fan when you leave the room or increase/decrease its speed as required. For e.g. every night at 3 am schedule the fan to operate at a preset speed or change speed according to the room temperature.

Dual Channel Dimmable Switch

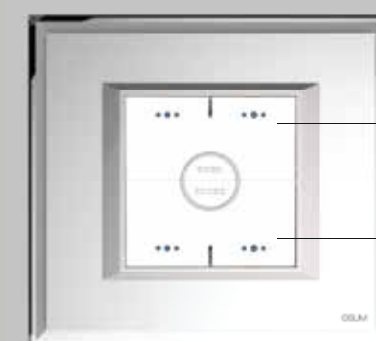

- Short press- On
- Long press- Speed increases
- Short press- Off
- Long press- Speed decreases

UNVEIL NEW DELIGHTS WITH A SINGLE TOUCH

Time has come when curtains will be more than a decorative drape, with the world getting on IoT (Internet of Things). Let your curtains glide open and close as per daily or weekly time programmed by you. For e.g. wake up every weekday at 7 am with your curtains opening and remain tucked in your bed on weekends as per your time.

Curtain Motor Controller

- Short press- Open
- Long press open and release to stop for desired level
- Short press- Close
- Long press close and release to stop for desired level

COLOR UP YOUR MOOD IN A FLICK OF A TOUCH

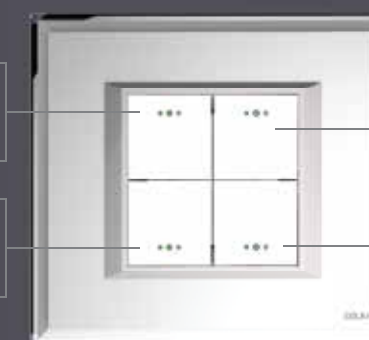

Bring suave beautification to your home. Control, change and cast light and shadows as per your inclination. Create a spectacle in your home with various LED light scenes and dimmer feature. Create millions of hues from our App or select upto 160 preset colours from our switch.

RGB Controller

Short press- Blue
2nd Short press- Purple

Long press- Violet
2nd Long press- Off
Short press- Green
2nd Short press- Aqua
Long press- Sky Blue
2nd Long press- Off

(Suggested scene setting)

Long press- Magenta
2nd Long press- Off

Short press- Red
2nd Short press- Orange
Short press- All On (White mode)
2nd Short press- All Off

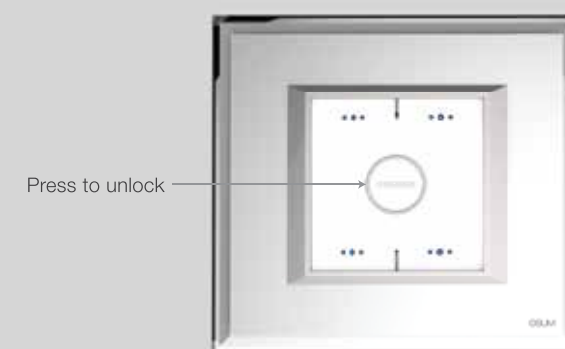

(All-in-one switch can have preset coloured scenes, one can match exact colour shade from the colour wheel on the mobile App)

UNLOCK NEW POSSIBILITIES FROM ANYWHERE

Walk through the door when it swings open and shut as per your command, smartly. Lock/Unlock your door with a passcode even remotely via cloud. Perfect for homes, villas, offices etc.

Door Latch Controller

(Suggested scene setting)

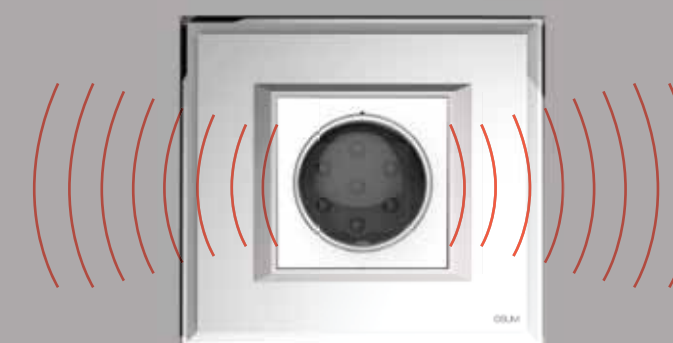

(Unlock your door from multiple switches from any rooms, without actually wiring it to each of them. Also unlock it from your Mobile App from anywhere in the world via cloud.)

YOUR ENTIRE ENTERTAINMENT BEGINS WITH A TOUCH

Up your showbiz quotient by controlling your TV/AC/Set-top box/DVD player etc. with our switch and SL- BUS powered IR Blaster.

IR Blaster

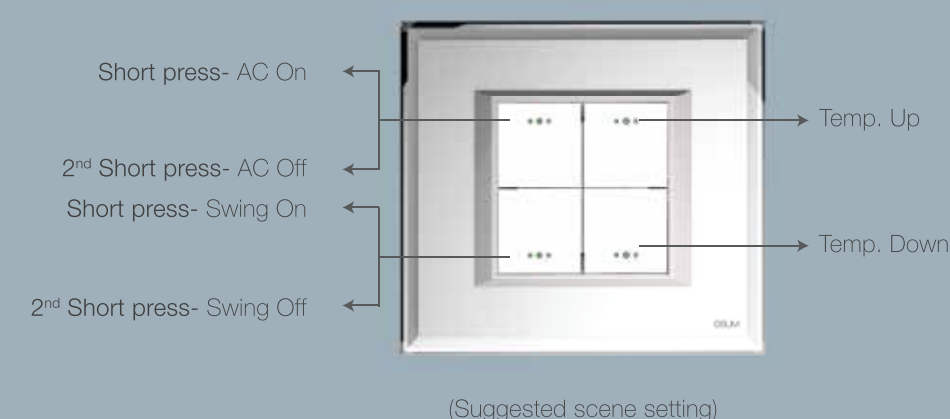

FLAIR YOUR ATMOSPHERE WITH A COOL TOUCH

Requisites of routine will appear as pleasure, when geyser will switch on daily at a pre-set time, and AC/Fan/Heater will turn smart to sense humidity of the room. Enabling you to manage and schedule temperature with Humidity/Temperature Control.

Humidity/Temperature Controller

(Our humidity/temperature sensor can show room humidity/temperature in real-time. Preset temperature level can trigger any scene along with AC to switch On. Also manually control the temperature of the AC with our switch.)

SPOIL YOURSELF WITH SHEER COMFORT, WHEN YOUR WORDS BECOME A BEHEST

Thinking to take your lifestyle a notch higher and true automation solutions have it marveled arranged to surprise you. Time to access your space with voice-activated digital assistant Echo Alexa. Run an outstanding show with your verbal commands, always.

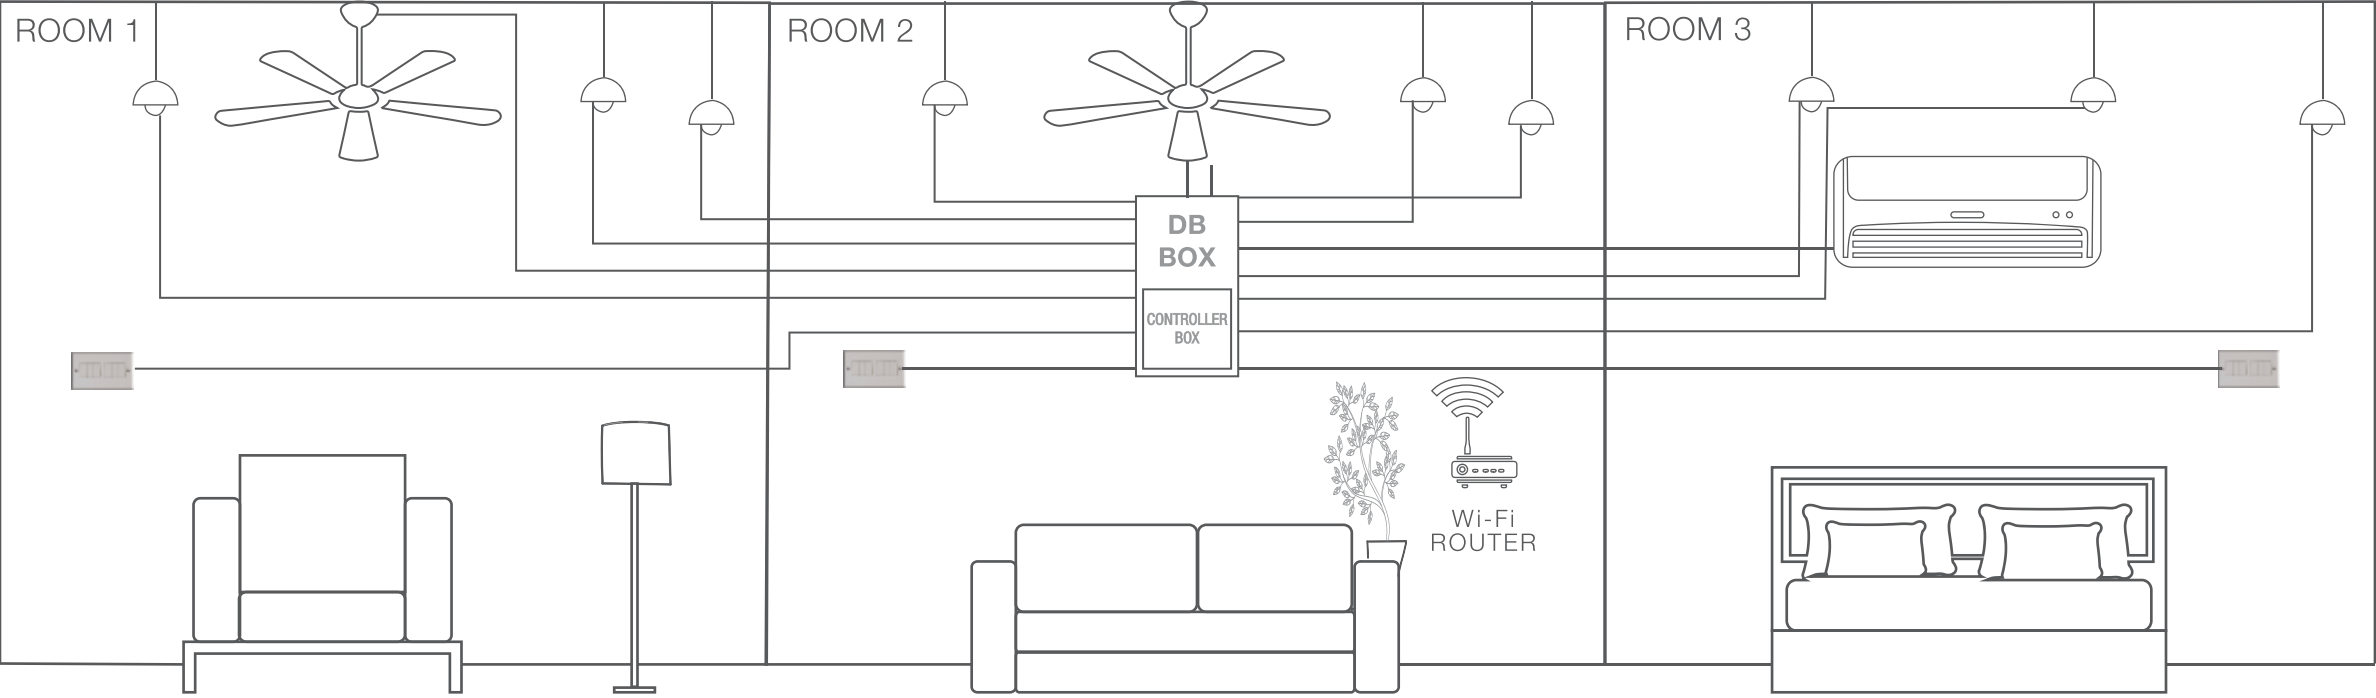

"Alexa- Dim the
bedroom lights"

"Alexa- We are back home,
switch ON the lights"

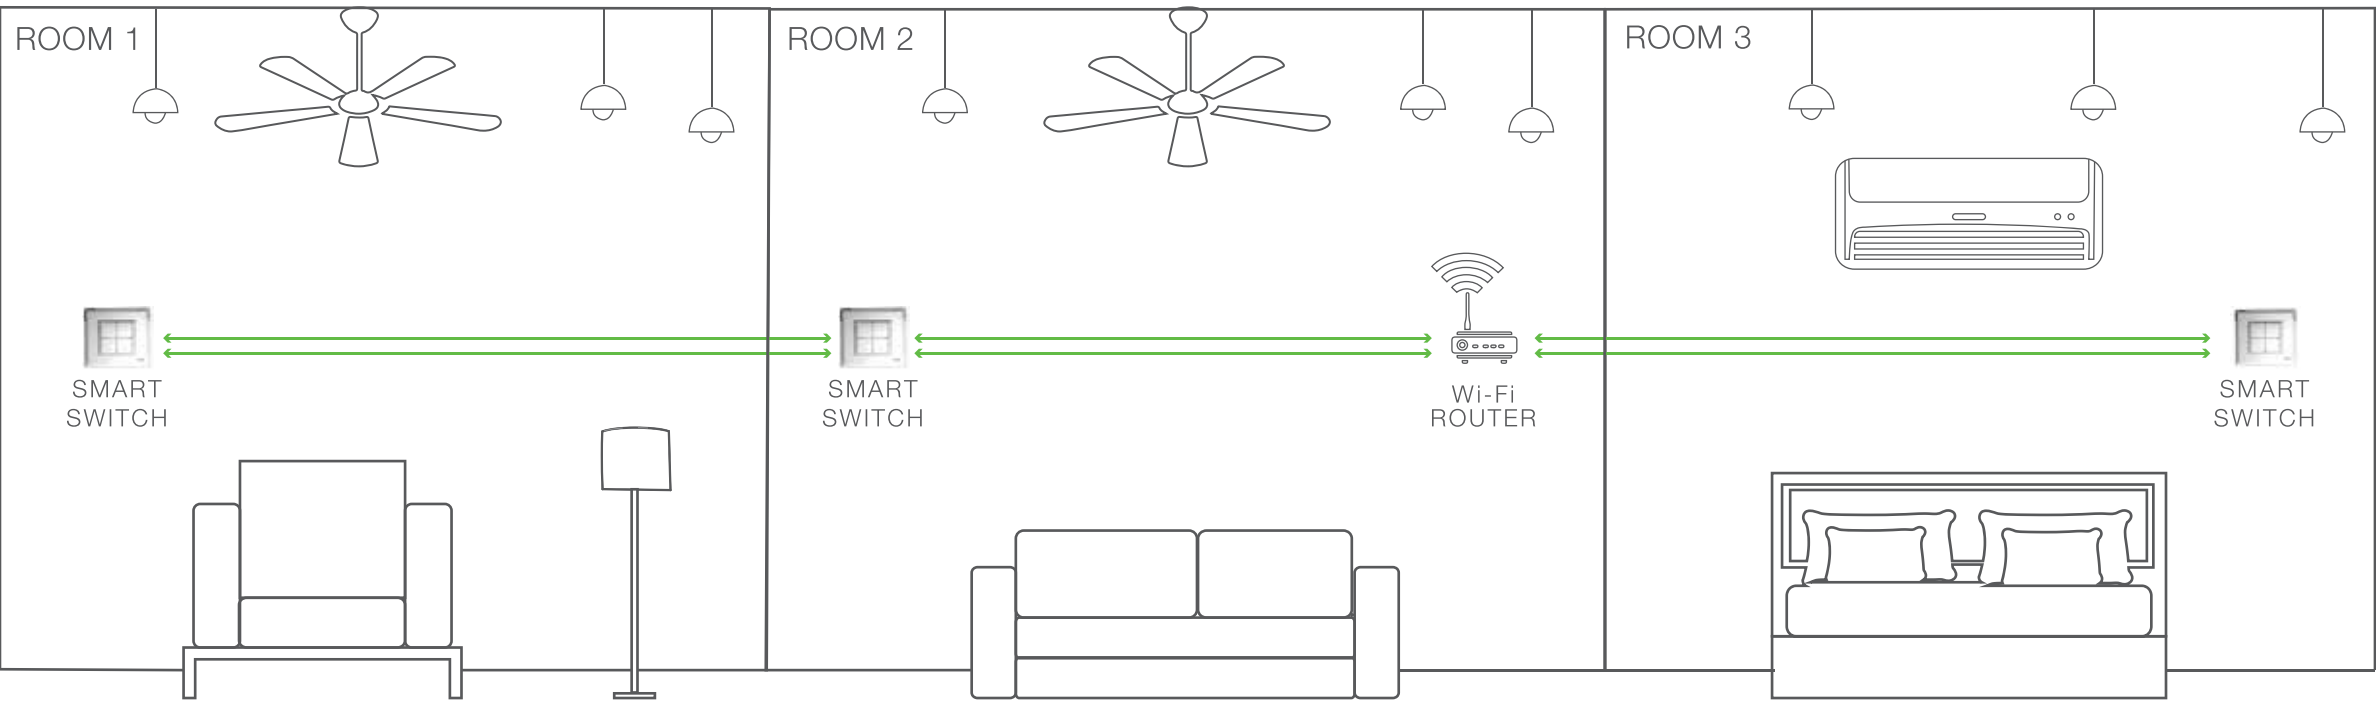

"Alexa- Increase the
TV Volume"

"Alexa- Switch OFF
the AC"
