

FS-300

Fancy Flat Diamond Chain Cutting Machine

PLC Faceting Machine (Programmable Logic Controlled)

- The programmable logic controlled (PLC) fancy diamond faceting machine can generate decoration on various flat and rectangular chains in steps and alternative intervals.
- The machine is pneumatically operated for long term trouble free production.
- The machine is equipped with programmable logic controller. Stored designs can be selected as desired thus giving flexibility in production and is user friendly.
- The special adjustable horizontal head gives flexibility in generating designs on narrow and wide chains ensuring distortion free machining.
- All the machine components are machined in precision CNC machine and are hardened and grounded. These components are individually inspected for accuracies. This machine is assembled in a controlled environment.

Technical Data

Dimensions	40 Inches x 29 Inches x 66 Inches (l x b x h)
Weight	550 Kgs.
Input Power	440 Voltages 3 PH & Neutral
Air Supply	6 Bar or 100 psi

Note : All rights of modifications reserved.
