# SAFEX PURE BONE MEAL

**SAFEX PURE BONE MEAL** is a mixture of finely and coarsely ground animal bones and slaughter-house waste products. **SAFEX PURE BONEMEAL** rich in phosphorus (p2o5 min 20 %) and calcium (13%) It is used as an organic fertilizer for plants. As a slow-release fertilizer, **SAFEX BONE MEAL** is primarily used as a source of phosphorus and protein.

## ADVANTAGES

- ▶ **Phosphorus (AS P205)** is key nutrient available in **SAFEX PURE BONE MEAL**. This mineral plays a big role in photosynthesis, root, flower, and seed production, energy transfer within the plant, and other vital functions.
- ▶ Pure bone meal is the only source for the natural and highest amount of natural phosphorus,
- ▶ Higher amount of organic phosphate helps to increase yield.
- ▶ Calcium is famous for building strong bones, and it is also beneficial for plants. Bone meal fertilizer is enriched with this essential mineral. It helps keep the cell walls of your plants strong & healthy and promotes steady growth
- ▶ Bone meal breaks down slowly, making it the perfect long-term fertilizer that only needs to be applied once per year.
- ▶ **SAFEX PURE BONE MEAL** will continue to feed your plants thoroughly entire crop season.
- ▶ Completely free of chemicals, the natural decomposition process feeds the microbes in the soil.
- ▶ Available higher amount of organic matter helps to improve soil fertility.
