WHY SPANCO?

The ASA is a Spanish style synthetic resin roof made from ternary polymer co-extruded by three kinds of materials : acrylonitrile, styrene and acrylate. The main material ASA is acquired from SABIC, one of the Global 500 companies. These Spanish roof tiles can withstand strong winds and earthquakes as they have an outstanding corrosion resistance and anti-UV performance. Ensuring easy installation, our ASA synthetic resin tile is available with varied external designs according to the clients demands. According to clients demands, our ASA synthetic resin tile is available with varied external design .

1. The ASA is a rust-proof and heat-resistant light-weight roof tile that gives cooling effect in the hot summers.
2. Good quality modified PVC materials with high toughness and sound resistance is adopted to ensure the strength without compromising on the rigidity.

Factors :

- ❖ Sound proof
- ❖ Light weight
- ❖ Easy to Install
- ❖ Rust proof
- ❖ Heat Proof (having thermal insulation feature)
