

Hydrogen Rich

# ALKALINE

The Next Generation Water

## Health Benefits of Hydrogen Rich Alkaline Water

Skin Defense

Good Digestion

Boost Immunity

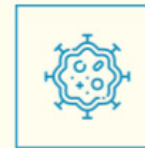

Skin Health

Prevents Diabetes

Weight Loss

Cancer Resistance

Muscles Stronger

Healthy Heart

Body Detox

NATURALLY  
IMMUNITY  
BOOSTER

COLD  
WATER

HOT  
WATER

100%  
WATER  
SAVING

FRUITS &  
VEGETABLE  
DETOXIFIER

## Why MIDAS H2O is a LIFE PRODUCT at such a DREAM PRICE

Alkaline water + Hydrogen water + RO Purified Mineral rich water + Activated Carbon filtered water + UV rays Sanitized water

### PRODUCT SPECIFICATIONS

Delivers Alkaline & Hydrogen Rich Water with any water source even at low TDS.
Equipped with built-in high recovery RO & Activated Carbon technology.
Negative ORP up to 800 MV of hydrogen water.
Hassle-free auto electrode cleansing system.
One touch operation & dispensing- easy to use.
Fruit & Vegetables Ozone Detoxifier.
Child Lock for safe Hot Water Dispense.
LED Display screen to monitor Status.
TDS and temperature display on screen.
Inbuilt 7 litres pure water storage.
Direct Drinking Cold water available with the cooling capacity of 0.8 ltrs.
Ready to use Boiling Hot water for tea & coffee with the heating capacity of 1 ltr.
Manual side tap to dispense Normal Alkaline Water in case of no electricity.

**ALKALINE  
HYDROGEN RICH  
WATER PURIFIER**

### TECHNICAL SPECIFICATIONS

Product Dimensions: W 20" H 16" D 11"
Applications: Table Top / Wall Mounting / Under the Counter
Easy to Replace 2-in-1 Pre- Filter Cartridge
Pre- Filter Cartridge change Indicator on Display Screen
Water Source Indicator on Display Screen
4-in-1 Filter cartridge for Balanced pH, Minerals, Negative ORP & Hydrogen Rich Water.
UV lamp in the tank to protect stored water.
Power Consumptions: Cooling (60W), Heating (550 W) when in use.
Ozone Generator (5W), RO (30W) in 5G-Pro.
Cold Water Storage : 0.8 ltrs in 5G-Pro.
Cold Water Storage : 1.2 ltrs in 5G-Max
LED Screen to monitor machine status like Tank Full, Auto Flushing Purification etc.
TDS & Hot Water Temperature Display
Intelligent Membrane Flushing System after every hour.
9-Stage Filtration: PP, CTO, GAC, RO Membrane, UV Steriliser lamp, Bio + AA Alkaline, Minerals + Hydrogen + ORP Filter
Input Power Supply : AC 220 volt
SMPS DC Power Supply 24 Volt (1.7 Amp)
RO Booster Pump 24 Volt (75 GPD)
75 GPD RO Membrane Sheet.
Thermo Electric Water Cooling System.
Electronic Water Level Control Switch.
Automatic Dry Run Protection Switch.

A Sincere combination of  
Technology, Innovation, Intelligence, Expertise  
& the 9 step water crafting Process makes every drop awesome.

Experience the phenomenal properties of  
Hydrogen Rich Alkaline water for better health and Lifestyle benefits.

MIDAS H2O, the flagship brand of Midas group in line with its sincere expertise  
in the water industry presents the state-of-the art Hydrogen rich Alkaline  
water Generator to give superior quality and awesome test water.

Purification... Value Addition & Sanitation Stages.

- 1 Pre-Filtration:**  
It has a built-in smart Pre-Filtration, a combine filtration of Polypropylene and 5 micron CTO filter that removes dirt, impurities, rust, slime, sand and grit.
- 2 CTO filtration:**  
CTO removed Chlorine & unpleasant Odour that crafts water much clearer in color backed with a more appealing taste and odourless.
- 3 Activated Carbon Filtration:**  
Coconut shell activated carbon filter is used to filter water that uses activated carbon granules to remove contaminants and impurities using chemical absorption technology that turns water sweeter in taste.
- 4 RO membrane filtration:**  
It removes contaminants from water by using pressure to force water molecules through a semipermeable membrane which is 0.001 micron thick. It effectively filters all small organic matters & other contaminants which are then flushed away, leaving you clean and delicious water.
- 5 Alkaline Cartridge Treatment:**  
Alkalizing restores PH balance by reducing acidic level in body. It provides several health benefits by neutralizing free radicals that can cause cellular & DNA damage.
- 6 Negative ORP Generation:**  
Water with high PH has a higher amount of reducing agents and is designated by Negative ORP. Negative ORP increases the antioxidant value of water & the microcluster that makes water more hydrating.
- 7 Infusion of Hydrogen:**  
Adding Hydrogen in water helps turn our cells into " An Antioxidants factory". Hydrogen Rich drinking water can give us more energy, slow the aging process and even speedy muscles recovery after a workout.
- 8 Minerals Supply:**  
Here, very essential minerals such as Calcium, Potassium, Sodium & Magnesium are added which increases the metabolism of the body and gifts healthful life.
- 9 UV Treatment:**  
Disinfecting water with ultraviolet light is exceptionally simple, effective and environmentally safe. UV rays in the tank can kill up to 99.99% of harmful micro-organism without using chemicals and changing the odour or taste of stagnant pure water in the tank. It also doesn't allow the harmful viruses, bacteria or algae grow in our pure water tank.

## What is hydrogen rich alkaline water?

All natural water sourced from mountains, springs, river Ganga and well is Alkaline water. Alkaline water is opposite of Acidic water. It has higher PH level than plain or tap water. Due to higher PH level it can neutralize acid in your body. The PH of normal water is 7 that is neutral but it is suggested that it would be more healthful to drink water that is Alkaline. Alkaline water PH level is up to 14. Generally the Alkaline water of PH level 7.5 to 9 is the most beneficial for health. Hydrogen Rich Alkaline water can provides the dual benefits of higher antioxidants due to dissolved hydrogen molecules and the balanced Alkaline PH level.

## Why MIDAS H2O ?

Though 74% of the earth is covered with water, only 2.5% of available water on the earth is drinkable. Remaining 97.5% water is either highly polluted or salted. Most of the drinking water is coming from ground water sources. Ground water is so polluted that it can cause severe side effects and diseases. During rainy season it becomes more infectious. Today, we drink bottled, filtered or RO purified water. Generally harmful bacterias remain active in filters and RO purifiers restricts essential elements and minerals that is vital for our health.
