- Lockable wheels (optional)
- Operation with remote control (up & down movement.)

# Blood Donor Couch DC-100X

DC-100X Blood Donor Couch is a completely automatic enveloping, variable tilt chair. DC-100X was specifically designed to make blood withdrawals easier, safe and functional, and it then turned to be perfect also for other diagnostic and therapeutic areas.

The possibility to taking a semi orthopenic position, which is undoubtedly preferred by patients of blood donors compared with the dorsal position lying on a bed makes long blood transfusion chemotherapeutical or hemodialysis sessions more bearable.

In case of Vasovagal a light press on the control button makes the whole chair immediately tilt along its transversal axis, thus lowering the head and raising the legs, in a moderate Head low & foot high position. As a consequence it favours a rapid blood flow to the brain districts and an immediate recovery from the lipothymial state. Slowly and gradually the position is then brought back to the initial semi-seated and then upright position, in order to avoid orthostatic hypotension events.

DC-100X can be equipped with a practical I.V. rod, with a height-ad-justable hook, that can be easily, installed on both side.

These characteristics make the DC-100X couch the ideal solution for Blood Transfusion, Centres. Diagnostic Analysis lab and Day Hospitals.

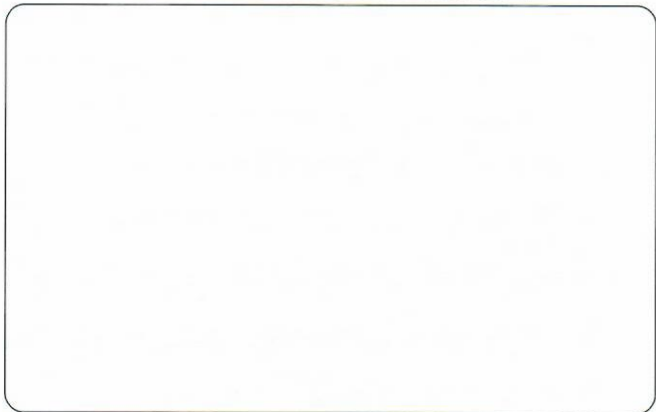

Equipped with stepless electric remote controlled height adjustment.

## Specifications:

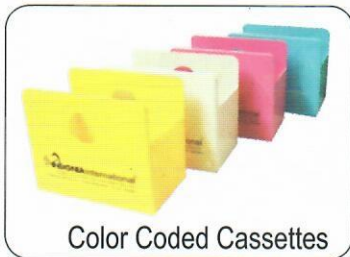

External Dimension	220 cms / Full Length, Seat Length - 60 cms, Back Rest - 92 cms
Loading weight	200 kg
Voltage Requirements	220-240 V AC
Average Power Input	60 Watts
Arm Rest	Left/right side adjustable with UP/Down Movement 18 cms wide
Scope of Delivery	AC connection cables, Arm Rests
Movement Control	Push Up / Push Down
Weight	90 kgs. Approx
Packing	One unit (Transport worthy pack)
Time for Position Change	20 Seconds

- Provides a comfortable position for the donor.
- Variable positioning for either arm with a comfortably wide arm-rest.
- Arm rest have swinging out as well up and down moving facility.
- Reclining and upright body positions with a smooth shifting to any position.
- Both sides have supporting brackets.
- Comfortable working level for the operator.
- Lifting capacity- Approx 200 kg.
- Drawer provided for the storing consumables.
