SUBJECT: PORTFOLIO OF M/s LAKSHMI ENGINEERING WORKS

Introducing ourselves as registered makers and suppliers of various varieties of **hydrological, metrological, geological, river gauging, scientific instruments** gives us great pleasure.

With their complete satisfaction, we are providing these things to all government and semi-government departments. In our workshop, we also perform the repairs on these instruments.

All of our instruments come with a one-year warranty from the date of supply. Therefore, we kindly ask that you add our company name to your mailing list and ask about our high-quality equipment so that we can provide you with the most affordable quotes.

Thanking You

PRAVEEN KUMAR

PUNJAB TYPE SILT SAMPLER

The sampler has advantages, of low cost, simplicity in design and operation.

This is the most common type of suspended sediment Sampler it consists of a metallic one litre capacity bottle held vertically in the metallic frame at one of a adequate length of pipe with lever attached to the lower end and a flexible wire running with the help of one spring and lever for opening and closing the mouth of bottle fitted with rubber cock during sampling. The sampler has advantages, of low cost, simplicity in design and operation.
