

## *Tuti Fruity*

Healthy BITS for your FOOD-Delights

**A real-fruit candied delicacy.  
Made from finest quality Raw Papaya**

Papaya is a highly nutritious fruit with high fiber, rich antioxidants and it supports digestion.

### **Product Uses :**

- In bakery and confectionery items e.g. breads, cakes, cookies.
- In hotels & ice-cream parlours for ice creams, cakes, cookies, fruit salad, falooda.
- At homes for cakes, cookies and dressing up salads / ice-creams
- In Meetha-Paan and as a Safe real-fruit mouth freshner for kids

### **Product Advantages**

- Healthy & safe replacement of other toppings like jelly cubes which contains excessive thickeners & stabilizers; Tuti-fruity is a real fruit
- Tuti-fruity contains good amount of dietary fibers which is not present in any other toppings.

### **Customer Benefits**

- A good quality of tuti-fruity used as an ingredient will ensure that the end product be it a cake, cookies or a ice cream will be finest quality with longer shelf life. There will be no risk of fungus growth in end recipie.
- Nilon's tuti-fruity blends well with the end product; giving the right taste and flavour to the end recipie
- Ensuring a perfect fruity bite - not too tight not to loose!

### **Nilon's Product Excellence:**

Nilon's expertise in serving the best quality tuti-Fruity since 1962, has made us world's largest candied fruit producer; with a capacity of over 20000 tons p.a. Our commitment to quality and timely services has kept us much ahead always.

### **Our success factors:**

- Purchase only high quality Papaya; Food safe colors and packaging material
- Manufactured at BRC –A grade and ISO 22000 certified state of art Italian plant; in Contamination free, Sanitised environment.
- Hands-free technology to peel, cut and mix the fruit bits.
- Cut on imported URSHEL Dicer so that each fruit piece is uniform in size. Consistent cut-sizes ensures each fruit bit spreads across the batter and does not settle at the bottom
- Processed in PLC base; stainless steel equipments under vacuum to retain nutritional values.
- The 11 days manufacturing process ensures minimum 12 months shelf life, good taste and no off smell
- It does not leaves it colour on the end product – the final recipie.
- Each pack passes through scanners and metal detectors for removal of any foreign particles
- Assurance of 70% sugar concentration in every bit. This assures that the product is free from any microbiological contamination as high sugar concentration acts as a preservative.
- All batches supplied are supported with quality test reports

**Nilon's tuti-fruity is the preferred choice of Leading bakery, biscuit and ice-cream brands in India.**

### **SKUs available:**
