## **Introduction:**

Our goal is to provide clients with a single-point source for all their wastewater treatment needs and to ensure their complete satisfaction not only with the systems themselves but with their long-term performance as well. We not only manufacture exceptionally high-quality systems, but we also offer design services, training, equipment commissioning, chemical formulations, and maintenance after the initial installation.

## **Systems/Products:**

Wastewater Treatment Systems  
Sewage Treatment Systems  
Anaerobic Treatment  
Continuous Sedimentation  
Heavy Metal Removal  
Dissolved Air Flotation  
Filter Press  
Evaporation Systems  
MBBR Systems  
Fluidized Bed Systems  
Diffuser Systems  
Pressure vessels  
Sequential Batch Reactor  
MBR System

Wastewater Treatment Equipment  
Filter Press Systems  
Biological Systems  
pH Neutralization  
Induced Air Flotation  
Clarifier Systems  
Odour Control Systems.  
Aeration Systems  
Bio Pac Media Systems  
Tube Settlers  
Air Blowers  
Lamella Clarifier  
Activated Sludge  
O & M Service
