CONTROL UNITS

(included with the sauna)

SAUNA ELECTRIC HEATER CONTROL UNIT ECON D2

- .. Allows the steam room lighting and ventilation to be controlled
- .. With LCD screen
- .. 24-hour programmable timer
- .. Clock
- .. Temperature range: 30° -110 °C
- .. Timer range: 6 h
- .. Maximum wattage: 9 kw, up to 36 kw with wattage distributor
- .. Dimensions: 250 ×220 ×58 mm

SAUNA ELECTRIC HEATER CONTROL UNIT EMOTEC DC 9000

- .. Allows the steam room lighting and ventilation to be controlled
- .. With LCD screen
- .. 24-hour programmable timer
- .. Clock
- .. Temperature range: 30° - 110 °C
- .. Lighting colour change enabling module
- .. Timer range: 6 h, 12 h or no limit
- .. Maximum wattage: 9 kw, up to 36 kw with wattage distributor
- .. Dimensions: 240 ×230 ×70 mm

SAUNA ELECTRIC HEATER CONTROL UNIT EMOTEC DC 9000 DLF

- .. Allows the steam room lighting and ventilation to be controlled
- .. With LCD screen
- .. 24-hour programmable timer
- .. Clock
- .. Temperature range: 30° - 110 °C
- .. Lighting colour change enabling module
- .. Timer range: 6 h, 12 h or no limit
- .. Maximum wattage: 9 kw, up to 36 kw with wattage distributor
- .. Flat design
- .. Dimensions: 180×145×4 mm
- .. Electrical distribution module: 240×230×70 mm (located separately from control unit)

SAUNA ELECTRIC HEATER CONTROL UNIT EMOTOUCH 2

- .. Allows the steam room lighting and ventilation to be controlled
- .. Full colour touch-screen
- .. 24-hour programmable timer
- .. Clock
- .. Temperature range: 30° - 110 °C
- .. Lighting colour change enabling module
- .. Timer range: 6 h, 12 h or no limit
- .. Maximum wattage: 9 kw, up to 36 kw with wattage distributor
- .. 8 languages
- .. Option to control a heater with a steamer
- .. Dimensions: 170 ×145 ×40 mm
- .. Electrical distribution module: 240 ×230 ×70 mm (located separately from control unit)

SAUNA ELECTRIC HEATER CONTROL UNIT EMOTEC D

- .. Allows the steam room lighting and ventilation to be controlled
- .. Full colour touch-screen
- .. 24-hour programmable timer
- .. Clock
- .. Temperature range: 30° - 115 °C
- .. Lighting colour change enabling module
- .. Timer range: 6 h, 12 h or no limit
- .. Maximum wattage: 9 kw, up to 36 kw with wattage distributor
- .. 8 languages
- .. Dimensions: 127 ×130 ×25 mm
- .. Electrical distribution module: 270 ×300 ×100 mm (located separately from control unit)
