

## Dewaxing Boiler Autoclave for Investment Casting

### **SALIENT FEATURES :**

- Fully Indigenous
- Heating - Electrical / Diesel Oil Firing.
- Economical, Efficient, Easy to Maintain.
- No Cracked Shells Due to Instant Thermal Transfer.
- Connect Services & Start Dewaxing.
- Simple to Install.
- Safe & Convenient Control for Operation.
- Optimum Results with Selection of Variable Cycle as per Material Composition.
- Automatic Wax Drain System with Residual Steam Pressure.
- Fast & Safe Door Closing System.
- Equipment Insulated with Cladding Ensures Minimum Radiation Loss.

# Dewaxing Boiler Autoclave for Investment Casting

**Designed with Internal Electrical Heating / Separate Diesel Heating System to Generate Steam for De-Waxing Shells.**

Model	Diameter	Length	Pressure	Heaters for Electrical Heating	Oil Consumption for External Steam Generation Unit
	mm	mm	Kgs./cm <sup>2</sup>	KW	Kgs./hr.
EBPL-DAC-9/10	900	1000	10	75	12
EBPL-AC-10/13	1000	1300	10	96	18
EBPL-DAC-11/15	1100	1500	10	120	24
EBPL-DAC-13/15	1300	1500	10	144	24
EBPL-DAC-20/30	2000	3000	10	180	30

**Energypack Range of Dewaxing Boiler Autoclave System are Tried & Tested, Developed Specifically for Key Process Area of Investment Casting Often Called Lost Wax Casting.**

**Registered Office & Works of Principle Manufacturer:**  
**ENERGYPACK BOILERS PVT LTD.**
