

VISTA

VISTA - IWA

INTEGRAL CEMENT WATERPROOFING ADMIXTURE

DESCRIPTION:

Vista IWA - is a Integral Cement Waterproofing Admixture for heavy duty damp proofing for concrete, mortars and any type of cementitious renders. The presence of this integral admixture resists and reverses the normal tendency of hardened concrete to absorb water by capillary action and makes the concrete totally sealed against penetration of water (Vista IWA) conforms to IS: 2645-2003.

USES :

- Plastering work on all brick wall in Residential and Industrial Structures.
- In soils, basement structures and for damp-proof course in residential building
- For repair / maintenance work of existing damp wall, saltpeter in bricks works.
- As an integral Damp roofing / waterproofing compound in concrete for roof , slab etc.
- In marine structures and sea-facing buildings.

ADVANTAGE :

- Ensures complete water repellent concrete
- Reduced dampness from the plastered surface of the brick work
- Protect concrete from weak acid / salt solution, oil and hydrocarbons
- Prevents / Reduce sweating, efflorescence saltpeter action
- Resists fungal growth on the plastered surface of the brick.

PROPERTIES:

Aspect	Brown colour Liquid
Specific gravity	1.18 ± 0.02
Chloride Content	Nil as per BS: 5075
Toxicity	Non-Toxic
PH	8+

APPLICATION:

VISTA IWA is supplied ready to use. For maximum dispersion throughout the mix, recommended quantity of VISTA IWA should be added into the mixer at the same time as the mixing water and not to be added to the dry cement.

VISTA

STOREGE:

Vista IWA should be protected from extreme temperatures and preferably stored in the shade, and has a minimum shelf life of 12 months when it is stored under normal temperatures.

PACKING:

VISTA IWA is available in 500gm ,1 kg, 5 kg, 10 kg, 20 kg. and 250 kg container

SHELF LIFE:

Up to one year as long as the sealed containers are kept under cover in a dry place under normal temperature conditions.

DOSAGE:

100 gm per 50 kg bag of cement.
